MEMORANDUM FOR:

[Redacted]  
Acting Director, Defense Intelligence Agency

25X1

FROM:

Robert M. Gates  
Deputy Director for Intelligence

SUBJECT:

Directorate of Intelligence Research Program for 1985

1. Thank you for DIA's thorough review of our 1985 Research Program. We have given your comparison of the agencies' two programs to the research director in each of our offices. Your provision of contact points for DIA papers will facilitate the discussions that we both believe necessary to make our mutual efforts as efficient and effective as possible.

2. We will soon make mid-year corrections to our program to bring it more in line with our current resource picture. Your response will make a useful input to this effort. I have encouraged the offices to do their utmost to check out the analysis in their longer papers throughout the Community and especially with your people. Thanks again.

Robert M. Gates
